## OVERVIEW

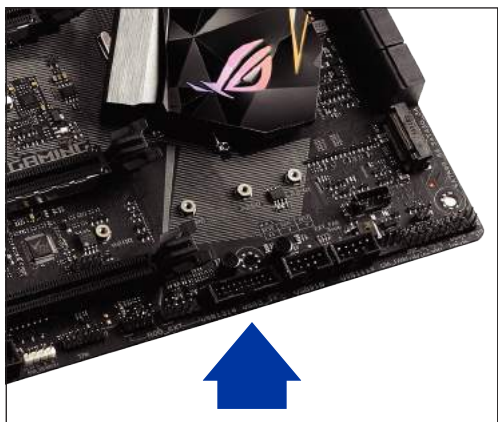

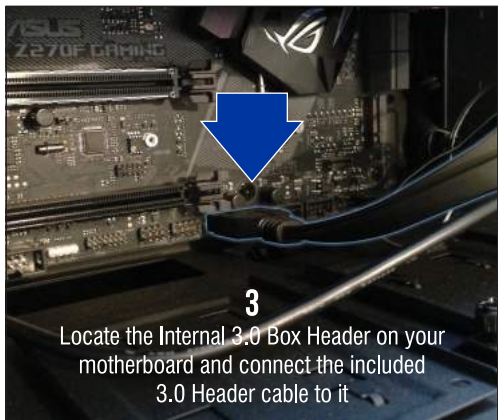

- 1 - 2 additional 3.0 Ports
- 2 - 3 additional 3.0 Box Headers
- 3 - Input 3.0 Box Header
- 4 - SATA Power Port

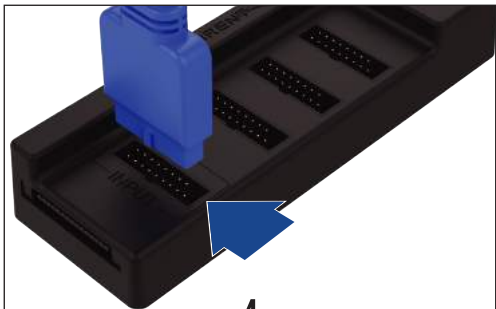

**HB-INTR / INTERNAL USB 3.0 HUB/SPLITTER**

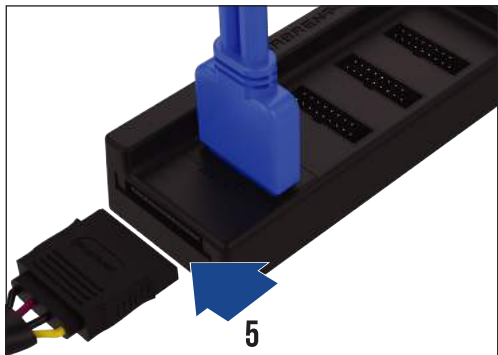

**HB-INTR / INTERNAL USB 3.0 HUB/SPLITTER**

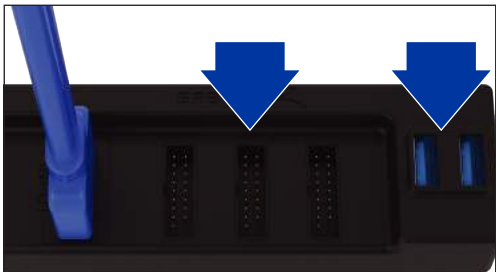

4

Connect the other end of the cable to the Sabrent Hub/Splitter's **INPUT 3.0 Box Header**

5

Connect a **SATA** power cable to the Sabrent Hub/Splitter's **SATA Power Port**

**6**

Connect your USB 3.0 accessories to any of the Sabrent Hub/Splitter's **3 additional 3.0 Box Headers** or **2 additional 3.0 Ports**

**7**

Close the cover to your desktop, connect the power cord to it and power up your PC

## NOTE

It should come up in **Device Manager** when installed correctly

## NOTES

This requires an internal 3.0 box header on your motherboard

Some Attachable 3.0 accessories might require a driver install

The SABRENT Internal USB 3.0 HUB/Splitter is Plug & Play (No software installation required)

A SATA power cable connected to the SABRENT Internal USB 3.0 HUB/Splitter is required for best performance

## **TROUBLESHOOTING/SUPPORT**

### **Does not recognize my 3.0 accessories?**

- Re-seat the 3.0 Box Header cable connection to your Motherboard.
- Re-seat your 3.0 accessories connected to the Sabrent 3.0 Hub/Splitter.
- Update to the latest BIOS update for your PC.
- Restart your PC.

### **No Power?**

- Re-seat the SATA power connector.
- Try it with a different SATA power connector.
